

Research Management Portal

Project Cost Proposal & Budget Estimation

Project Overview

The Research Management Portal is a centralized web-based platform designed to manage, monitor, and streamline research activities within the institution. The system supports multiple user roles including Administrators, Research Centre Coordinators, Faculty Members, Research Guides, and Scholars through a secure role-based environment.

Infrastructure & Deployment Cost

Service	Estimated Cost
Frontend Hosting	Rs. 1,500 - 2,500/month
Backend Hosting	Rs. 1,000 - 3,000/month
MongoDB Database	Rs. 0 - 4,000/month
AWS S3 File Storage	Rs. 0 - 2,000/month
Domain Registration	Rs. 800 - 1,500/year
SSL Certificate & Security	Included with Hosting

Estimated Operational Cost

Category	Estimated Cost
Monthly Infrastructure Cost	Rs. 2,500 - 11,500/month
Annual Domain Renewal	Rs. 800 - 1,500/year

Development Resources & Software Subscriptions

Component	Cost
AI-Assisted Development Environment Subscription	Rs. 2,000/month (During Development Period)

Development Charges

Component	Cost
Research Management Portal Design, Development & Testing	Rs. 25,000 (One-Time Payment)

Scope Included

- Requirement Analysis & System Planning
- User Interface Design

- Frontend Development
- Backend Development
- Database Design & Configuration
- Authentication & Authorization System
- Multi-Role Dashboard Development
- Research Workflow Management
- Document Submission & Tracking
- Reporting & Monitoring Features
- Testing & Quality Assurance
- Initial Deployment & Configuration

Project Cost Summary

Cost Category	Amount
Development Charges	Rs. 25,000 (One-Time Payment)
AI Development Tools	Rs. 2,000/month
Infrastructure & Hosting	As Per Actual Usage
Domain Registration	Rs. 800 - 1,500/year

Payment Terms

- Development Charges are payable as a one-time payment.
- AI-assisted development software subscriptions are applicable only during the development phase.
- Hosting, storage, database, and domain charges shall be borne by the institution after deployment.
- Additional modules, feature enhancements, maintenance services, and future integrations shall be quoted separately.

Terms & Conditions

- The proposal is based on the current scope and requirements.
- Any additional features or scope changes may require revised costing.
- Project timelines depend on timely approvals and feedback.
- Third-party service charges are excluded unless specified.
- Source code will be delivered after agreed payments are completed.
- Post-deployment support may be charged separately.

Proposal Validity

This proposal is prepared based on the current project scope and requirements. Any major modifications, additional functionality, or third-party integrations may result in revisions to the proposed cost structure.
